

Yarra Ranges Film Society. News for December 2022

Hello to all our members,

A quick reminder of what is happening for our final screening of the year.

December screening, Christmas drinks and membership

Our last film of the year will be *The Man Who Invented Christmas*. It is a light, lovely and whimsical look at what inspiration may have come to Charles Dickens as he struggled to come up with a successful novel after a few failures.

Warburton: December 13

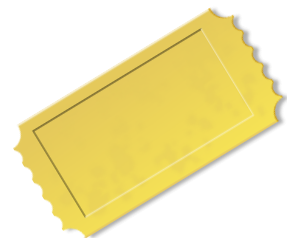

Healesville: December 20

Christmas drinks will be served **before** the film, and membership for 2023 can be renewed at this time. (Doors open early at 6:30) EFTPOS facilities will be available.

Brochures with the complete program for 2023 will be available for everyone.

Bring a guest or guests.

This would also be a great time to introduce new members to the Film Society. Bring a complimentary guest, and they will be able to join for 2023 if they wish.

DVD library bargains

Don't forget to bring along some coins. There are still plenty of DVDs left for the perusal of you and your guests. Take some home to keep for a small donation (whatever you see fit).
Great stocking fillers just in time for Christmas.

Looking forward to seeing everyone there for Christmas drinks and our delightful film.
Don't forget to pick up a brochure for next year's cracker or a program.

Viv Bond.
